10/825/272

Amendment to the Claims

This listing of claims will replace all previous listing of claims:

1. (Currently Amended) A pet stroller comprising:
  - a) a frame comprising:
    - i) a bottom section,
    - ii) a tray disposed directly on said bottom section,
    - iii) a handle disposed on said frame,
    - iv) a plurality of wheels rotatably secured to said frame; and
  - b) an enclosure comprising:
    - i) an enclosure frame forming a bottom section of said enclosure, an outer section of said enclosure, and a plurality of end sections of said enclosure, said enclosure frame comprising a plurality of semicircular hoop portions and a plurality of crossbars;
    - ii) a flexible netting material secured to said enclosure frame and covering said outer section of said enclosure;
    - iii) a padded material covering the bottom section of said enclosure;

KING-5 CIP  
10/825/272

iv) at least one door releasably secured to at least one of said plurality of end sections of said enclosure; and

v) a handle mounted to said enclosure for carrying said enclosure.

wherein said enclosure is mounted in said frame by placing said enclosure on said tray.

2. (Previously Presented) The pet stroller according to claim 1, wherein said frame comprises a plurality of side rails secured to said bottom section and a plurality of rear rails secured to said bottom section.

3. (Previously Presented) The pet stroller according to claim 2, wherein said plurality of side rails and said plurality of rear rails are comprised of metal tubing.

4. (Previously Presented) The pet stroller according to claim 1, wherein said frame is collapsible.

5. (Previously Presented) The pet stroller according to claim 1, wherein said flexible material is secured to said enclosure frame with adhesive, rivets or binding.

KING-5 CIP  
10/825/272

6. (Previously Presented) The pet stroller according to claim 1, wherein said netting material comprises fish netting.

7. (Previously Presented) The pet stroller according to claim 1, wherein said netting material is secured to said enclosure frame by rope or string which is wrapped through a hole in said netting material and around said enclosure frame.

8. (Previously Presented) The pet stroller according to claim 1, further comprising a durable, water resistant material disposed on a portion of said outer section of said enclosure.

9. (Previously Presented) The pet stroller according to claim 1, wherein the durable water resistant material covers one of the end section of the enclosure.

10. (Previously Presented) The pet enclosure according to claim 9, further comprising a window cut in the end section that contains the water resistant material.

KING-5 CIP  
10/825/272

11. (Previously Presented) The pet enclosure according to claim 9, further comprising a pocket located in said end section containing the water resistant material.

12. (Previously Presented) The pet stroller according to claim 8, wherein said durable water-resistant material disposed on a portion of said outer section of said enclosure covers approximately one half of the length of said enclosure.

13. (Previously Presented) The pet stroller according to claim 1, wherein said enclosure is collapsible.

14. (Previously Presented) The pet stroller according to claim 1, wherein each of said plurality of wheels is comprised of rubber.

15. (Previously Presented) The pet stroller according to claim 1, said wheels are removable.

16. (Previously Presented) The pet stroller according to claim 1, wherein said plurality of wheels comprises four wheels.

KING-5 CIP  
10/825/272

17. (Previously Presented) The pet enclosure according to claim 1, further comprising a brake to stop rotation of said plurality of wheels.

18. (Previously Presented) The pet stroller according to claim 1, wherein said enclosure frame is constructed from a strong weather-proof material selected from the group consisting of aluminum, steel and heavy plastic.

19. (Previously Presented) The pet stroller according to claim 1, wherein said door is releasably secured to at least one of said plurality of end sections of said enclosure by a zipper.

20. (New) A pet stroller comprising:

a) a frame comprising;

i) a bottom section,

ii) a handle disposed on said frame,

iii) a plurality of wheels rotatably secured to said

frame; and

b) an enclosure comprising;

i) an enclosure frame forming a bottom section of said enclosure, an outer section of said enclosure, and a

plurality of end sections of said enclosure, said enclosure frame comprising a plurality of semicircular hoop portions and a plurality of crossbars;

ii) a flexible netting material secured to said enclosure frame and covering said outer section of said enclosure;

iii) a padded material covering the bottom section of said enclosure wherein said bottom section of said enclosure is formed from fabric;

iv) at least one door releasably secured to at least one of said plurality of end sections of said enclosure;

v) at least one handle mounted to said enclosure for carrying said enclosure said handle extending lengthwise on said enclosure; and

vi) a fabric cover covering one half of the length of said enclosure said fabric cover being mounted over at least two of the frame components.
